The Company

The ON LINE founded in 1991 to serve and educate the business world.

The key factors of dynamic progress of our company, which is now considered the top comprehensive educational coverage to third parties, are mainly:

The organization and operation in accordance with international standards.

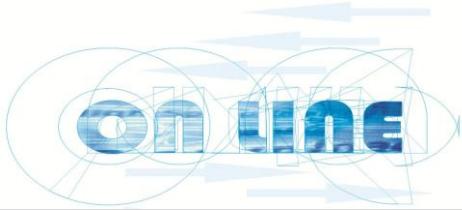

Using the latest technology facility on completion of the work.

The expertise of the personnel.

The ethos of our staff.

The consequence of our clients large or small.

The high level of professional responsibility and the optimal way to cooperate with the client.

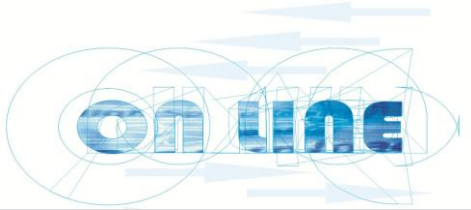

The Company

Our infrastructure in these key areas is the main chapter, which underpins the continued evolution and growth of the company.

The workforce of ON LINE, brings vast knowledge and experience in all phases of implementation of major projects and participates actively and intensely until the completion of each project.

So we can accurately determine the particularity of each project with the best solutions in the fields:

1. Project management
2. Organization and management
3. How to implement
4. Monitoring the progress of implementation, remedial settings
5. Estimated operating time (time estimating)
6. Staff training in specific techniques for each project
7. Configure the ideal in terms of operation for each project environment.

A letter from the President

With this letter and order under challenge I have to say the following:

The on line educational and advisory concerning the penetration of the markets where it aims at:

selling quality products and programs EDUCATION NSRF
with actions and training projects,
with subsidies to businesses,
Market surveys
with projects MUNICIPALITIES,

The target is the best and most effective solution for our customers, because

- A. First we see the need of our client,
- B. We commit for the implementation of projects,
- C. We submit to approval by the competent authorities,
- D. We Implement and
- E. We are rewarded according to the result.

There are many projects available but without effect for our clients, and that is our main rule to hold in the consciousness of the client.

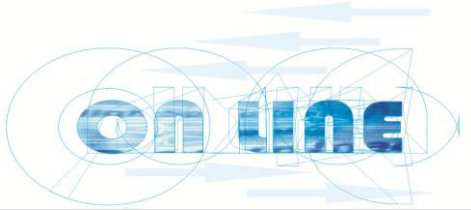

The motto is:

SUCCESS IS NOT TO MAKE THE EQUIPMENT FACILITIES BUT qualified and trained cadres.

APPLIED TRAINING PROGRAMMES AND COUNSELLING IN ACCORDANCE WITH THE REQUIREMENTS OF THE COMPANY.

The activities of approved and implemented projects are many and are as fill us with a sense of pride and responsibility. It is in those 20 years we have managed to peddle in larger consultancies.

We create the foundation for the next 10 years in order to be placed as number one in GREECE.

A letter from the President

We create a great educational center in MARKOPOULO with headquarters, the ON LINE, a center LIFELONG LEARNING 2 with subsidized training. The activities are for market research companies in GREECE and in EUROPE in cooperation with foreign body also IEK will have expertise in aviation occupying former executives of Olympic Airways

We want to develop partnerships with foreign firms for extraversion, and while the business environment allows us. Therefore we have a corresponding office in Bulgaria in order to expand into neighboring countries such as Poland, Romania and Czech Republic.

Our client list contains over three thousand 3,000 customers who are willing to invest into the future.

By the way I want to thank from my heart every single current and former colleagues. We started together and we continue to fulfill our dreams into the future.

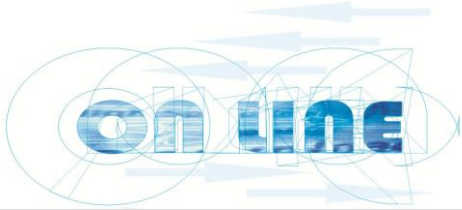

Also I want to thank my former partners and my wife MAVROPOULOU OLGA who gave me two of my great loves Theodore and George, and above all for the tolerance shown me all these years since 1995.

What I always think is that we are not alone in this market, and the fact that our customers have us as their first choice, fills us with satisfaction. We believe, we trust that you trust us because our guide is the truth.

Thank you all who have worked to collaborate with me I promise you that the best to come.

KOUTSOMPINAS NIKOLAOS

The People

The given material and technical infrastructure of the ON LINE in education originally satisfied the field. And with this "specialty" undertook in 1998 the implementation of training seminars in cooperation with the municipalities or with other organizations.

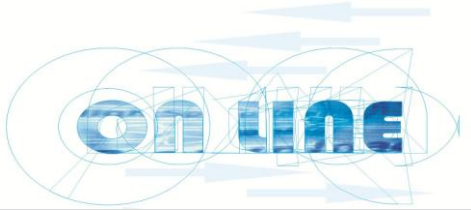

The training horizon so shaped by the objectives of the ECB triggered extension and educational activities ON LINE. The result was to create a wide range of themes and subjects, covering the most of the training needs of local government or other organizations, private sector companies, both thematically and qualitative terms.

The activities

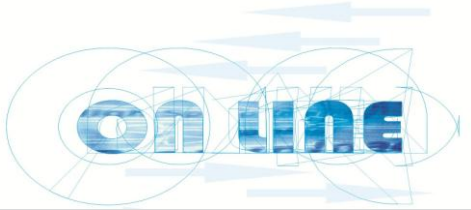

- There are five sets of seminars
 - ECONOMIC
 - COMPUTER / OFFICE AUTOMATION
 - PRIMARY PRODUCTION (Agriculture-Farming-fishing, etc..)
 - CULTURAL
 - TRADITIONAL
- Staffed with trained experts – speakers.
- Each package was developed to include more than 30 specialized seminars for 5 sets altogether.

The activities

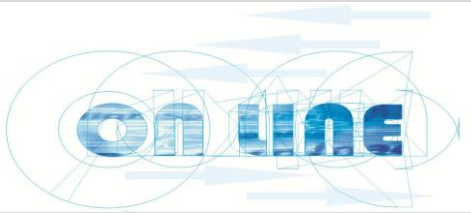

The policy areas of the European part of the ON LINE program are the following:

1. Update - information for partner companies - organizations or other entities for the existence of community programs that are of interest depending on the business stakeholders and the content of the Community Program.
2. Finding partners, at national level (associated with European networks), since in most EU programs require collaboration (national or transnational)
3. Submit unfounded requests by modern studies that might be required
4. Interface section of European programs ON LINE with a series of centers shots Community decisions to ensure timely information on the happenings in the European space.

The programs

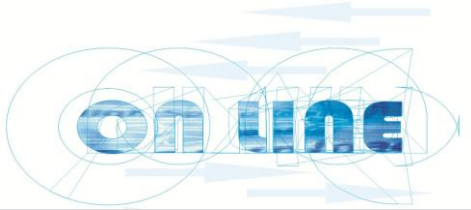

- The treatment of educational material and writing notes, the aim was to achieve the maximum result in minimum training time (fast training method), which is, moreover, the main objective of the seminars.
- Already ON LINE offers a complete range of training sessions that combine highly qualified curriculum and excellent implementation of the selection of the most qualified speakers and trainers.

The programs

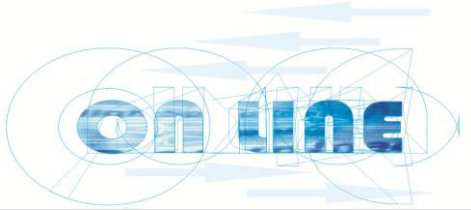

**OPERATING PROGRAMS COMMUNITY SUPPORT FRAMEWORK (CSF I, II
CSF, CSF III KPSIV)**

- a) ESF Operational Programs (European Social Fund)**
- b) Operating programs E.G.T.P.E. (Guidance Section)**
- c) Programs of Cohesion**
